

STEM Interest/Careers

1. Tell me about your interest in science. Are there specific topics that interest you? Specific teachers or specific events you did that caught your interest more?
2. What aspects of science do not interest you?
3. How do you feel about experiences you've had in your science class this year? Do you feel differently about the laboratory experiences versus the traditional classroom experiences?
4. Are you interested in pursuing a career in a STEM field?
5. What goals do you have for your career/after high school?
6. Do you know what STEM means?
7. Do you know what STEM career options are available?
8. How confident are you in your science skills?
9. Do you ever think about how what you're learning in your science classroom relates to your life and the world around you?

Coral Reefs/Climate Change

1. What do you know about coral reefs?
2. Does learning about coral reefs interest you?
3. What do you know about climate change?
4. Do you believe the climate is changing?
5. Do you know the threats humans pose to the environment?
6. Are you personally interested in protecting the environment?
7. Do you think protecting the environment is important?
